Professional Summary

Flutter-focused Mobile Application Developer with hands-on experience building responsive and scalable applications using Flutter, GetX, and Provider. Skilled in REST API integration, Firebase, Supabase, and backend connectivity, with growing expertise in Node.js, NestJS, and TypeScript for backend development. Focused on clean, maintainable code, performance, and user-friendly application development.

Technical Skills

Frontend	Flutter, Dart, Custom Widgets
Programming Language	C, C++, Java, JavaScript, TypeScript, Bash
State Management	GetX, Provider
Backend & APIs	NodeJS, NestJS, API Integration, Data Handling, Flask (Python), HTTP
Database & BaaS	Supabase, Firebase, PostgreSQL, MySQL, MongoDB
Development Areas	Cross-Platform Mobile Application Development

Experience

Independent Flutter Developer 2024 – Present

Self-directed Project

- Built multiple Flutter-based mobile applications focusing on clean UI, responsive design, and smooth user experience, handling full development workflow from planning to implementation.
- Experienced in designing scalable app architecture, implementing REST APIs, and managing backend services for production-like mobile application.
- Focused on writing maintainable code, optimizing performance, and delivering user-friendly mobile solutions independently.

Projects

CraftyBay 2025

E-commerce Mobile application (GitHub-link) *Flutter, GetX, HTTP*

- Built full-featured app with product search, category filtering, cart, and user authentication.
- Integrated REST APIs ensuring smooth UI and scalability.

Task Management 2025

Task managing Mobile Application (GitHub-link) *Flutter, GetX, HTTP*

- Developed task manager app with CRUD operations and authentication.
- Designed responsive UI for efficient task handling.

TourDe 2025

Tour Management App UI Design for Mobile App (GitHub-link) *Flutter, GetX*

- Designing UI for a travel management app with focus on visual appeal and usability.

SpendWiseGo 2026

Personal Expense Tracking Mobile Application *Flutter, Provider, NodeJS, NestJS*

- Built a full-stack expense tracker app with Flutter frontend and NodeJS and NestJS backend.
- Focused on expense management, analytics, and API-based architecture with clean UI/UX.

Education

Daffodil International University Ongoing

Bachelor of Science (B.Sc.) in Computer Science and Engineering

CGPA: 3.95

Dean's List Award (Spring 2025 & Summer 2025)

Achievement & Certificates

- **App Development with Flutter** – Ostad (Certificate)
